FRANKLIN 454

Entered at the Post Office Chicago, Ill., as Second Class Matter March 16, 1902.

Socialist City Campaign 1903:

For Mayor - CHAS. L. BRECKON. City Treasurer - GEORGE T. MILLER. City Attorney - THOMAS J. MORGAN. City Clerk - HJALMAR F. LINDGREN.

PLATFORM.

- 1. The Socialist Party, in convention assembled, reaffirms its allegiance to the principles of International Socialism as expressed in the platform adopted at the National convention of the Socialist Party, at Indianapolis, Ind. 2. We call the attention of the wage workers to the fact that the Socialist Party came into existence because of the division of Society into two opposing classes—capitalists and wage workers.

RESOLUTIONS.

Resolved that since the Socialist Party is an International Party committed exclusively to the interests of the working class and an integral part of a world movement, it cannot locally or otherwise fuse or ally itself with any other party, without losing its essential character.

WILL GET WHAT THEY WANT.

After a deluge of meaningless blather over the Traction question in Chicago in the columns of the city press, one fact seems to stand out plainly, namely that franchises will be granted.

GROWING ELE TRICT.

Never was there a time when the outlook for Socialism was so favorable as the present. The entire world of capitalism seems bent upon advertising it to the utmost possible extent.

The Manufacturers' Association attacks the unions and organized labor generally, with such venom and bitterness as to leave no doubt whatever of the existence of a class struggle inherent in our economic system.

Roman Catholic clergymen here and there are preaching silly sermons against Socialism and leaving one impression at least upon their hearers, viz. that it is the one great issue of the day.

On our part, agitation, steady, persistent, and continuous, is the one great necessity to its realization.

Apply Here for Speakers.

Wards and branches having permanent Headquarters, should at once apply for speakers, and hold hall meetings every Sunday. There are a number of speakers who will gladly give their services and the comrades should take advantage of this fact at once.

SNAP SHOTS BY THE WAY SIDE

The campaign com. should have a dollar for every Socialist vote cast in November. It cannot make a dime do the work of a dollar. If we are to conquer capitalism everything that we can possibly spare must be given to the cause.

Socialist papers gain entrance into some houses just as the Salvation Army "War Cry" does; not because it is wanted, but rather because the solicited ones have not independence enough to refuse it.

There is dismay amongst the officials of the McCormack Harvesting Machinery Co., on account of their inability to check organization amongst the employees who are steadily and secretly pushing it.

Not more than a year ago a member of the Chicago Federation of Labor made a speech in which he sarcastically advocated the shooting of mechanics over 45 years of age.

Poor old General Booth is out after the millionaires of the United States and proposes to enroll them as members of the Salvation Army.

There was no explanation, no warning, scarcely a rumor of the impending distress. The employes walked to the cashier's window, one by one, to draw their weekly pay, some to begin to work for the night, others leaving for the day, and were greeted with: "You are not wanted any more. The works are closed indefinitely."

MANAGER'S COLUMN.

Comrade Serrigan, of Glassport, Pa., writes: "The Chicago Socialist is a good paper. * * * when I was in Paterson some one sent it to me I am now a Socialist to the backbone."

Last week your manager was able to place an order for an extra thousand papers. Since then, additional orders make it necessary to add 2,000 more this week.

Have you read Karl Kautsky's "Social Revolution." It costs 50 cents a copy and it is quite the best book ever printed on the subjects now up in Chicago. Buy one.

The twenty-eighth ward is in line. They are going to send 25 papers to 25 voters in each precinct each week for four weeks.

Comrades, did you ever stop and think of the value of the Chicago Socialist in your propaganda work.

Are you hustling for subs? Don't forget to drive all the cash you can to headquarters. We are doing business now.

On Friday Feb. 13th Comrade Rubenstein will speak at Porge's Hall, cor. Maxwell and Jefferson sts., at 8 p. m. Subject "The Conspiracy of Silence is Broken." Free admission. Everybody welcome.

X Rays

By JOHN M. WORS.

If you want to do the timely thing, work for Socialism. Only by so doing can you make your life count for progress at the present stage of evolution.

The other day I heard a general agent giving instructions to a local agent. Among other things he said, "In this business the left hand must never know what the right hand doeth."

There is many a church member, with an income not greater than that of the average workman, who gives anywhere from twenty-five to two hundred dollars a year to the church.

The public really owns the sidewalks, strange as it may seem, but the people scarcely have time to walk on them. Any morning you can see them scurrying away to their work.

I recently had the pleasure of looking through an automobile factory and seeing the delicate and very interesting machinery in operation.

The leading features of Wilshire's Magazine for February are a personal letter to the editor, from Ernest Croget, by author of "Captain Jinks, Hero," setting forth his economic views in a pleasing conversational style.

WILSHIRE'S FOR FEBRUARY.

Materialistic, by G. E. Etherton. The editorials and comments display the editors keen insight and broad comprehension of social and industrial conditions.

MOVES TO CHICAGO.

Ruskin University to be Centralized at Glen Ellyn, Ill. Ruskin University with a valuation of \$500,000 and a corps of 250 teachers will be shortly established at Glen Ellyn, Ill., 22 miles from Chicago.

George A. McMiller president of the college at Trenton, Mo., J. J. Tobias chancellor of the Academic Senate. S. W. McCaslin general council for the University, and Dr. H. C. Allen of the Hering Medical College were amongst those present at the meeting in the Sherman House last week.

"UNCONSTITUTIONAL."

Supreme Court of Mass. Knocks out the Municipal Coal Yard Scheme. Boston, Jan. 31, 1903.

The Supreme Court of Massachusetts on Thursday last, sent its opinion to the Legislature as to the establishment of municipal coal and wood yards, as asked for in the resolutions presented, by Rep. McCartney.

The court takes the ground that under the constitution private property cannot be taken from its owner, except for a public use, that the establishment of a business like the buying or selling of fuel requires the expenditure of money, that the only way to obtain such money is by taxation and that money cannot be raised by taxation except for a public use.

The decision is hailed by the Boston "Herald" as a knockout blow for Socialism, which it says is now "outlawed as a practical policy in Massachusetts, until the constitution is changed."

The past week has been the last for introducing bills and the three Socialist members have presented their full quota, all of these being similar to those of former years.

Comrade Knopfngel is widely known as one of the clearest and most effective Socialist speakers in the country. A rare scholar and a powerful thinker, his contributions to Socialist literature are known to Socialist students both in this country and Europe.

Comrade Tiescher of Allegheny, Pa., informs us that Danny De Leon lectured in his town on Jan. 26th and proceeded to rip up the Socialist party according to custom.

Death rate of Chicago for January rose from 14.80 to 16.30 per cent as a result of the coal famine. The number of deaths was 71 in excess of that of January 1902.

SOCIALIST POINTERS.

Don't let it be your fault if Breckon is not elected. Ask your neighbor to subscribe. He needs the paper.

Under Socialism old men who have been thrown out of a job wouldn't have to shovel snow for a living.

Half a dozen active men can stir a ward from corner to corner. See what half a hundred could do?

John Mitchell does not favor public ownership of the mines; well, it would put him out of business for one thing.

Perhaps Mitchell might not despise the contributions of the Socialists should his coal miners go on another strike.

Did you notice that the coal dealers had to have things fixed the way they wanted them or they threatened to refuse to stand trial?

Some of the Pennsylvania cities expect to elect a Socialist mayor next spring and so does Chicago until the last ballot is cast.

People who went into the Darrow movement in good faith are now high and dry in the air but perhaps they needed the lesson.

It is sad to think that labor leaders were going to reform the city with Darrow could be bought off by the promise of a democratic job.

This Darrow movement has served one good purpose; It has shown up about two alleged Socialists; as far as can be observed it fooled no more.

If the capitalists fight us they advertise Socialism and if they remain silent we grow anyway; the capitalists are up against it and they are beginning to realize it.

The Chicago Club has voted not to increase its membership. That will force the hackmen who drive the millionaires up to the club to still wait on the outside.

When the time comes the street car companies will reach up into the council and pick the kind of franchise they want; with about \$50,000,000 involved they can very nearly dictate the kind of goods they will buy.

Over 500 enthusiastic men and women attended the Socialist ball in Grand Crossing last Saturday night. All the result of less than two year's agitation by a few active men. It can be done in any ward.

TAKE NOTICE THAT the 25th ward branch will give a grand entertainment on Saturday Feb. 14th at 8 p. m., in Clifton Hall cor. Belmont and Clifton aves. Music, Stereopticon views, moving pictures, recitations and dancing.

Chicago Federation of Labor has been "divorced from politics" according to the reform element who recently came into control.

SCATTERING PARS

The Living and the Dead. From a sentimental point of view the thousands of dollars to be spent by the miners for a monument to be erected to the memory of miners slain at Last...

"Conservatives" Dwindling. The Indianapolis convention of miners turned down the resolutions in favor of government ownership of the mines and also the referendum proposition...

A Modest Hint. The Indianapolis convention also passed resolutions thanking the American people for the support given in the anthracite strike. It would not have been out of place had they mentioned the fact that the Socialist Party had contributed donations amounting to over 9,000 dollars while not a cent came from either the Democrat or Republican parties...

Principles Vs. Men. In the wrangle over the question of street car franchises, and referring to majority candidates, Judge Tuley is quoted as having said: "We want to deal with MEN, not politics." In other words he places the man above principle. This is one of the hardest propositions for the average man to get through his cranium regarding the Socialist Party...

A Medical Blacklist. The city of Elkhart, Ind., has a physicians' trust and a blacklist scheme to be used against non-paying patients. The blacklist will be revised every 90 days. This is one of the beauties of capitalism under which we dwell. Socialism would furnish the best of service from the best physicians for every one. At present a poor man and his family must suffer with all sorts of ailments if he cannot meet his expenses. Under Socialism hospitals and clinics with the latest improvements and up to date facilities for treating patients would be in use. Physicians and surgeons would have an object in trying to cure the afflicted instead of collecting a big fee as is generally the case under capitalism. But as long as you vote for such conditions you are not to be pitied.

THE SOCIAL REVOLUTION. By KARL KAUTSKY. A book that is at once an educational and a propaganda work. Treats of the liveliest subjects in the Socialist movement.

REFORM AND REVOLUTION. Distinguishes clearly between these two forms of social movement. Shows weakness of the biological analogy as an argument against revolution. Proves that all the forces that cause revolution are present in the society of today, and that there is no reason to believe that the day of revolutions is over. THE DAY AFTER THE SOCIAL REVOLUTION. The most scientifically constructive discussion yet published on the character and direction of future social evolution. Completely destroys the "State Socialism" bugaboo. Describes the functions of national, municipal, cooperative and independent organizations in a socialist society. The translation has been made by A. M. and MAY WOOD SIMONS, who have sought, above all, to secure good, readable English. The book is printed in large, legible type, on good paper, substantially bound in cloth, in the Standard Socialist Series, and sells for 50 cents, postpaid. ADDRESS CHARLES H. Starting Facts! The census reports on manufactures in the U. S. throw new light on industrialism in this country, and sustain the Socialist position on the economic condition of the American people. The capture of industry would suppress this information. That's the reason why Socialists should spread it broadcast. That it may be done in a convenient and inexpensive manner, the Coming Nation has compiled and condensed the most important facts and printed them on small drop cards, which we call "KNOCKERS!" They are handy in argument and to drop in public places. 10c will be sent postpaid to any Socialist worker in the U. S. or Canada for 50 cents. Address The Coming Nation, Rich Hill, Mo.
